

THE REG **A** & CROWDFUNDING CONFERENCE

Hosted by DEALFLOW EVENTS

JUNE 20, 2024 • WESTCHESTER COUNTRY CLUB

About the Event

The Reg A & Crowdfunding Conference is the annual gathering place for professionals in the business of deal-marketing on the Internet. Just ask around. People who attend DealFlow Events know that the content and the vetted professionals who deliver it are without equal.

Following the success of our 2023 event and the positive feedback we received from attendees, we are bringing the conference back to the Westchester Country Club in New York on June 20, 2024. This is a superb venue for learning, networking, making new friends and securing business connections.

In 2024 we're also expanding the scope of the conference to cover Crowdfunding deals and the trends related to them, as well as detailed discussions and strategies for a successful capital raise through online deal-marketing. Attendees will glean insight from experts on deal structures, fees and expenses, and the continuously changing regulatory landscape.

The investment crowdfunding industry saw significant growth in 2023, with both Regulation Crowdfunding (Reg CF) and Regulation A (Reg A) experiencing substantial increases. This surge in alternative fundraising methods is expected to continue through 2024 and beyond.

As an event sponsor you'll receive positive exposure both before and after the conference from mainstream and specialty news organizations covering Crowdfunding and Reg A offerings, as well as online searches from potential clients looking for expert opinions and trustworthy firms to assist in their capital raising efforts.

Each year attendees at this conference represent a broad range of finance professionals with common interests and shared goals. Our events also attract the decision makers in a company – the people empowered to make deals happen. This is your opportunity to meet them.

Sponsorships are limited. To secure your spot at this event, contact our office today. We look forward to working with you.
